## Proposed Pedestrian and Cycle Routes

As part of the sustainable travel proposals of the development, a footway/cycleway network will be provided as part of the Local Distributor Road Network (LDRN).

The footway and cycleway routes will be connected to the Buncrana Road via the LDRN, and will create linkages through the green space/park areas. These routes will be provided in the same phasing as the Master Plan and Construction Plan.

– **Phase 1** - The pedestrian Route indicated in light blue will be constructed during phase 1 of the development. The footway & cycleway route indicated in dark blue will also be constructed during phase 1 of the development.

– **Phase 2** - The pedestrian route indicated in yellow will be constructed during phase 2 of the development. The footway & cycleway route indicated in orange will also be constructed during phase 2 of the development.

– **Phase 3** - The pedestrian route indicated in magenta will be constructed during phase 3 of the development. The footway & cycleway route indicated in purple will also be constructed during phase 3 of the development.

– **Phase 4** - The pedestrian route indicated in light green will be constructed during phase 4 of the development. The footway & cycleway route indicated in dark green will also be constructed during phase 4 of the development.
